

SMARTBEDS Mattress Size Comparison to American Standards

European mattresses are sized differently than American mattresses. We strongly suggest you allow us to send you the high density foam mattress wrapped in quilted cotton. Option to upgrade to memory foam is also available. You will be sent a fitted mattress cover with each purchase.

	American	European
Twin	39 x 74"	33 1/2 x 78"
Double (Full)	54 x 74"	53 x 78"
Queen	60 x 80"	62 1/2 x 78"

Each SmartBed Mattress is supported by a wooden slat system, housed in a metal bed frame. The slat system negates the need for box springs, and increases the life of the mattress.

This photograph shows the slats in the Revolving Bookcase model.

The SmartBed mattress is high density foam manufactured in Italy. It is perfect for a vertically stored murphy bed concept. Each mattress was made for the model you have selected. The sleep engineers at SmartBeds are confident you will be pleased with the comfort of their 6" thick mattresses.

Still not convinced of mattress comfort?

Call me in Denver and ask me to send you a 16 x 16" sample block of the mattress for your examination. I will pay the postage of this sample both ways: to you and from you.
